### PROFILE

I'm a motivated cybersecurity student with practical experience from an internship at Openinside Inc. Currently, I'm expanding my skills at Reboot Coding Institute, where I'm focusing on Full-stack development skills. With a solid grasp of network security fundamentals and a strong passion for cybersecurity, I'm eager to deepen my knowledge and tackle real-world security challenges.

### WORK EXPERIENCE

- Openinside** JUNE - AUGUST 2023  
Intern
  - Real Estate project using odoo :**
    - Developed a real estate website utilizing Python, Html, and Css as part of Odoo training programm.
    - added features such as searching and filtering and listing properties.
  - Accounting Reports Display Feature (final project):**
    - Designed and developed a new feature to list financial reports, integrating the existing database using Python.
    - Developed a UI to navigate through reports and download them using HTML and CSS.
